An academy within:

"Learning together, to be the best we can be"

## 1. Aims

1.1. This policy statement aims to set out our school's arrangements for managing the access of education and training providers to students for the purpose of giving them information about their offer.

1.2. It sets out:

- Procedures in relation to requests for access
- The grounds for granting and refusing requests for access
- Details of premises or facilities to be provided to a person who is given access

## 2. Statutory requirements

2.1. Schools are required to ensure that there is an opportunity for a range of education and training providers to access students in years 8 to 13 for the purposes of informing them about approved technical education, qualifications or apprenticeships, unless the school is delivering education within a hospital.

2.2. Schools must also have a policy statement that outlines the circumstances in which education and training providers will be given access to these students.

2.3. This is outlined in section 42B of the [Education Act 1997](#).

2.4. This policy shows how our school complies with these requirements.

## 3. Student entitlement

3.1. As a hospital school we believe that we must support the careers education of all pupils wherever possible. Therefore, all students in years 8 to 13 at Kingfisher Academy are entitled to the following in conjunction with their home school:

- Find out about technical education qualifications and apprenticeship opportunities, as part of our careers programme which provides information on the full range of education and training options available at each transition point
- Hear from a range of local providers about the opportunities they offer, including technical education and apprenticeships
- Understand how to make applications for the full range of academic and technical courses.
